# **Colorado Association for Recycling**

Turning today's waste into tomorrow's resources.

# **About CAFR**

#### Vision

To maximize the amount of material being recycled in Colorado and used as resources.

#### Mission

To bring together individuals and leaders in business, education, nonprofits, and state and local governments to take action to turn ever greater amounts of waste into resources.

CAFR is the leading independent, nonprofit organization in Colorado that is actively working to promote and encourage recycling through programs that educate the public, local governments, businesses and Colorado's elected officials and through programs designed to provide technical assistance to those wishing to recycle. We pride ourselves in offering the following services to our members and to the state.

## **Standard Membership Services and Benefits**

#### **Membership Directory**

CAFR's online membership directory can provide the public with access to your recycling information and services. This printed membership directory is one of your benefits, too!

#### Networking

Membership in CAFR helps get you in the loop. CAFR provides you with the opportunity to stay up to date with your peers, local recycling trends, state policy and, through CAFR's affiliation with other organizations, national issues.

#### **Publications**

*Quarterly Newsletter* – The electronic newsletter provides the latest information on CAFR programs and activities and can be used to highlight member accomplishments. It also contains information about what's going on in recycling locally and nationally.

*Bi-weekly Updates* – We combine various announcements and news items into one convenient e-mail every two weeks. The bi-weeklies include news from members, training and meeting announcements, and other noteworthy items that cross our desk.

#### **Annual Recycling Conference**

The Colorado Summit for Recycling is Colorado's only statewide recycling conference. As a CAFR member, you receive discounted registration rates and the opportunity to participate in the planning of the conference. The Summit offers technical training workshops, general recycling sessions and an excellent peer-networking opportunity.

#### **Annual Meeting**

This annual event is a networking meeting for association members to learn about what others are doing around the state and includes an annual update of the program, services and state of CAFR. It is also an opportunity for CAFR members to meet and talk face-to-face with the CAFR Board of Directors and officers.

#### **Board Meetings and Tours**

The Board of Directors meets every other month in various locations around the state. Everyone is welcome to participate in the meetings and join the directors for a tour of a member facility at or near that location. It's another great networking and learning opportunity.

#### **Policy Committee**

The committee tracks and promotes items of importance to the recycling community, educates legislators and decision makers, and works with other organizations to ensure that the voice of recycling is heard in Colorado. In its past five years of involvement at the state legislature, CAFR has been successful in passing historical legislation beneficial to the recycling industry in Colorado.

#### **Education and Outreach**

One of CAFR's goals is to maximize our exposure. This includes reaching out to other businesses and institutions in the community and promoting the activities and accomplishments of CAFR and its members. Members are encouraged

to participate by writing press releases about their organization, community or event and their involvement with CAFR. CAFR staff is available to assist with press releases and media participation.

#### **CAFR Councils**

Members have the option of joining one of CAFR's councils for an additional membership fee. Each council focuses on a distinct aspect of recycling in the state.

- Electronics Recycling and Reuse Council (ERRC) ERRC seeks to improve communication between the
  electronics recycling industry, those interested in using its services and relevant government agencies and
  departments. ERRC seeks to enable CAFR to formulate policy positions on the subject of electronics recycling.
  The council is working toward the establishment of standards that could form the basis of an accreditation
  program for electronics recyclers in Colorado.
- Rocky Mountain Organics Council (RMOC) RMOC promotes sustainable utilization of organic resources in the communities we serve. We focus on the professional production of quality organic products, developing markets for those products and educating our customers in their proper use and application.

#### **Recycling Organizations of North America (RONA)**

CAFR is a member organization of the Recycling Organizations of North America (RONA). RONA is an international organization that aspires to further develop and enhance recycling programs and the recycling industry by providing the networking, educational, technical and advocacy support that is best facilitated by a national or continental organization. You will receive national information from RONA through CAFR. For more information about RONA, visit www.recyclingorganizations.org.

#### Getting the most out of your membership

Actively participating in CAFR events and committees will help you get the most out of your membership. Attending our events and participating in a committee are the best ways to utilize the benefits that CAFR has to offer. CAFR represents you, and to ensure that your voice is heard, you need to stay involved. We understand that this may be difficult for members in remote areas and that is the reason that CAFR communicates with you using conference calling, e-mail and the internet.

Each of the previously mentioned benefits is sponsored by a CAFR committee that you may participate in!
