Operational Waste

- Packaging

A top-down view of a dark grey or black plastic bin overflowing with fresh produce. The items include several ripe red and yellow apples, several yellow-green pears, a bunch of dark purple grapes, various leafy greens like lettuce and spinach, a head of red radicchio, a green bell pepper, a cucumber, and a few strawberries. The produce is piled together, filling most of the bin's space.

Summit for Recycling & Rocky Mountain Composting Symposium

10X20X30

The text '10X20X30' is rendered in a bold, gold-colored font. The first '0' contains a white icon of a trash can with a lid. The second '0' contains a white icon of a plant with three leaves. The third '0' contains a white icon of a clock face with hands. The 'X' characters are black and serve as multipliers between the numbers.

# Summit for Recycling & Rocky Mountain Composting Symposium

## Our 10x20x30 Commitment

Reducing food waste is the #1 solution for reversing the effects of climate change. Kroger supports the global 10x20x30 Initiative and is working with these key supplier partners to cut global food waste in half by 2030.

For more information on our commitment to people and our planet, view our 2020 Environmental, Social and Governance Report.
