

Recycle Colorado is seeking candidates for its Conference Scholarship Program.

The scholarship provides funds for college students to attend the 2023 Summit for Recycling conference.

2023 Summit for Recycling

Where: The Steamboat Grand, Steamboat Springs, CO

When: May 21-23, 2023

Website: www.recyclecolorado.org/summit-for-recycling-conference

What happens at this event: Learn about career opportunities in the recycling, composting, waste diversion, circular economy and sustainability fields, while connecting with private businesses, local government, nonprofits, and university representatives. The conference agenda includes educational sessions, a variety of subject-matter experts, a business partner showcase, and fun networking opportunities.

What you get:

- Support from a mentor who is active in the industry, with an attempt to match this mentor to your specific experience and interests.
- Fantastic networking opportunities with professionals in a growing and exciting industry.
- Free attendance to the premier recycling conference for the state of Colorado, including access to sessions on various topics.

To Apply:

Candidates studying environmental sciences, sustainability, engineering, marketing, business and related fields, are highly encouraged to apply. Applicants must currently be attending a two- or four-year college or university in Colorado as an undergraduate or graduate student.

Eligible students must fill out the online application. **Responses are due by Friday, April 14th, 2023 at 5:00 PM.** Applications will be reviewed by a panel of collegiate and industry representatives. Recipients will be announced by Friday, April 28th, 2023.

Online Application: <https://bit.ly/3L0y6LL>

About Us

Recycle Colorado is a registered 501(c)(3) non-profit association committed to advancing infrastructure, end markets and state and local policies, so that Colorado's waste stream is recycled, composted or diverted to reuse or remanufacturing. Visit recyclecolorado.org for more information.

Testimonial:

"For me, being a recipient of the Recycle Colorado scholarship was so much more than being afforded the opportunity to attend the Summit for Recycling. I came away from the summit having made critical connections that jump started my career in sustainability. I was able to make the most of my experience through the professional development I received from a mentor in a career that aligned with my interests. I believe that the presentations, networking, information and resources I obtained through the scholarship were key in landing my first job in sustainability only one month later!"
