Chocolate Fuel & By-Product to Co-Product Innovation

Rhiannon O'Donnell
Biochemist & Green Energy Innovation Specialist

August 23 - 24, 2022 Aurora, Colorado

Cocoa Butter Biofuel

Patent US 63/142,620

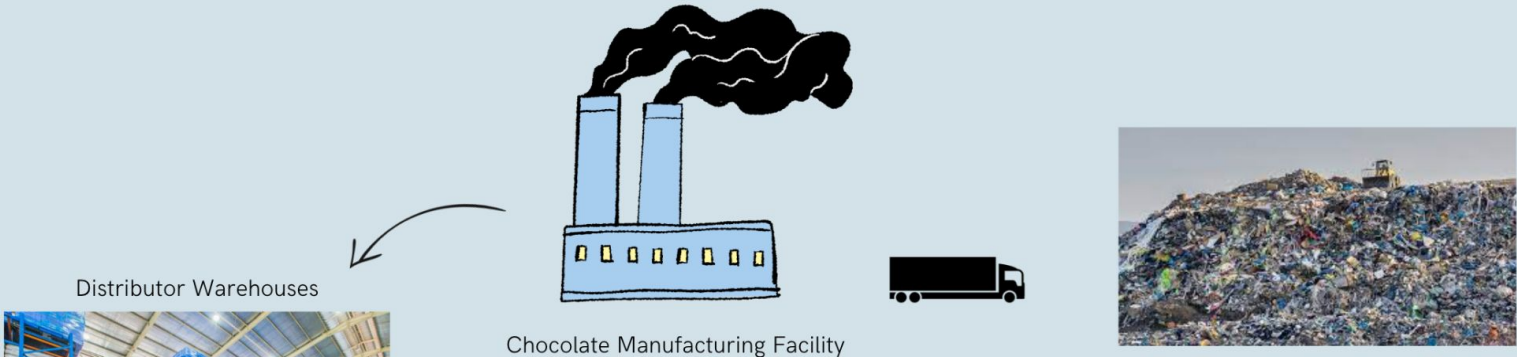

Methods & Systems of Producing Low Cloud Point Biodiesel from Cocoa Butter

ASTM Certified Cold-Stable Biodiesel and Applicable Manufacturing Outfit System for Closed-Circuit Power Generation within Industrial Chocolate Manufacturing Facilities.

ANSWERING THE
QUESTION

Can Renewables be Sexy?

LOT NUMBER / PULL DATE

Bloomed Chocolate

Summit for Recycling & Rocky Mountain Composting Symposium

"BACKYARD-ISH"

an understatement

Summit for Recycling & Rocky Mountain Composting Symposium

BERTHA THE '92 MERCEDES DIESEL G-CLASS

2,000 km All-Female Off Road Rally Race
Run on 280 Gallons of B-100 Cocoa Butter Biodiesel

Biofuel Rating

B- meaning biofuel
100- meaning 100%

A fuel blend containing 80% traditional petroleum (1,2) diesel and 20% biofuel would be rated B-20

EFFICACY TESTING ON A JET

TEAM WILDFIRE

GOAL

Take Manufacturing Off-Grid

In the US manufacturing accounts for almost a quarter (23%) of direct carbon emissions (EPA)

On-site Energy Generation Outfit

500,000 ft Manufacturing Facility

\$2.10/sq. ft utilities = \$1.5M per Month

Max facility outfit costs \$50M

BEP 36 Months

By-Product

What existing economic inefficiencies can be remedied by repurposing waste output of a given industry? By giving value and use to a byproduct we are then treating it as a coproduct.

Co-Product

REGENERATIVE BIOMANUFACTURING

Campworks NS-1
Biocomposites & Mycellium Insulates

Basking in mycelial growth at MycoLove Farm
